Academic Enrichment Programs

Grade 7-9 Academic Writing I

The Academic Writing program is designed to prepare Secondary students for the myriad of writing assignments as they transition from Primary school to challenging Secondary-level writing, to, eventually, college. Grade 10-12 College Writing

This course will guide students through the important transition between high school and college-level writing. It is designed for students who already have a strong foundation in writing skills and are ready to tailor their writing for higher education. Students will revise and workshop their essays with both the teacher and their peers, developing the habits of drafting and editing vital to success in university.

Course highlights:

- Rigorous writing assignments at the pre-university level, carefully supported by the writing process and feedback from the instructor
- Challenging readings followed by in-depth discussions that act as examples and inform student work

Perfect for students who:

- Understand basic writing conventions but do not always employ these guidelines and techniques in their own writing
- Are uncertain about how to approach long and complex writing assignments, and would like coaching on how to do this independently

Grade 10-12 Writing, Discussion, and Thinking

Designed to prepare students for both the academic rigor and discussion-driven learning environment of upper secondary school and the first years of university and college. The focus is on presenting students with salient challenging topics and critical thinking frameworks to analyze them. This will be set in the context of a lively, discussion-driven academic course in which students will engage intellectually in a wide range of high-level reading material. Students will be expected and encouraged to actively raise questions, challenge opinions, and even lead discussions of their own. The culmination of each lesson is a presentation after which students receive immediate feedback from the instructor and their peers. Ultimately, students in this course develop all-around communication and thinking skills which help them excel in upper-secondary school and university classrooms.

Perfect for students who:

- Present strong points but may lack clarity in verbal and written work
- Make general claims that are not supported by relevant, compelling evidence
